**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Atty. Charles S. Fish on December 7, 2005.

The application has been amended as follows:

Please cancel claim 14.

***Response to Appeal Brief***

1. This action is responsive to the Appeal Brief received on 9/19/2005. Claims 2-9 were subject to a restriction election. Applicant elected with traverse Claim 3; hence Claims 1, 3 and 10-14 are pending. Claims 2 and 4-9 were non-elected and are therefore cancelled in view of the allowability of Claims 1, 3 and 10-13.
2. *Claims 1, 3 and 10-13 are allowed.*

***Terminal Disclaimer***

3. The terminal disclaimer filed on 10/21/2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of any patent granted on Application No. 09/780,755 has been reviewed and is accepted. The terminal disclaimer is proper and has been recorded.

***Reasons for Allowance***

4. The following is the Examiner's statement of reasons for allowance:

The prior art or record fails to teach neither singly nor in combination, the claimed limitation of "creating a memory pool having a main pool header, said main pool header having an address referenced in said control block; allocating at least one subpool header having a subpool memory block containing one or more fixed-length connection blocks that are allocated within said subpool memory block, said connection blocks containing particular ones of said client NAT addresses, said subpool header being referenced by said main pool header; wherein each connection block may be either free or allocated, said particular ones of said client NAT addresses remain allocated within said subpool memory until all connection blocks in said subpool memory are free" as stated in Claims 1, 3 and 10-13. Specifically, none of the prior art of record teaches at least one subpool header having a subpool memory block containing one or more fixed-length connection blocks containing particular ones of said client NAT addresses, where the subpool header is referenced by the memory pool's main pool header. This limitation, in conjunction with other limitations in the independent and dependent claims, is not specifically disclosed or remotely suggested in the prior art of record. A review of Claims 1, 3 and 10-13 in

view of the Examiner's remarks above, indicates that Claims 1, 3 and 10-13 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to the applicant's disclosure: *Smith et al* (USPN 5,860,082), *Tari et al* (USPN 6,765,920), *Meyer* (USPN 6,813,645).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kristie Shingles whose telephone number is 571-272-3888. The examiner can normally be reached on Monday-Friday 8:30-6:00pm.
